Morocco is one of the most profitable markets for food, processing, packaging and machinery industry in the African region with its perfect location, annual growth rate, and its dependency to the international food market. Morocco is located in Northern Africa with a perfect close-range of Europe, less than 15 kilometers away from Spain. Morocco which has around 37 million populations is the 6th largest economy among the 14 Middle East and Northern Africa countries. It had a GDP of 147.343 billion dollars in 2023.
